### SUMMARY

I develop innovative web applications that enhance the efficiency and effectiveness of organizational success. I use Laravel, Livewire, PHP, MySQL, Bootstrap, JQuery, JavaScript, AJAX, OOP, HTML and CSS to create reliable and user-friendly systems that meet the company's needs and goals.

I have a passion for learning new technologies and writing code that is clean, readable, and scalable. I have a proven ability to collaborate effectively with other developers, designers, and stakeholders, and to communicate clearly and listen carefully to user feedback.

### WORK EXPERIENCE

#### Menasa Smart Solutions

Back End Developer Php | Laravel

Oct 2023 - Present

- I'm responsible for creating and developing many applications and systems for company clients from the early beginning and participating with other team members in developing and upgrading current systems using latest developing technologies.
